**Leptoprin®-SD Directions:** For maximum weight loss, take two capsules with a full glass of water 15 minutes before each meal. Do not exceed 6 capsules per day.

**NOTE:** For persons sensitive to the effects of xanthines (i.e., caffeine and caffeine-like stimulants), start by taking only 1 capsule twice a day and gradually build up to the full, 2-capsule serving. Limit the use of caffeine-containing medications, foods or beverages while taking this product because too much caffeine may cause nervousness, irritability, sleeplessness and occasionally, rapid heart beat.

For free personalized diet and exercise programs designed to be used in conjunction with Leptoprin formulations, as well as information and support, visit [www.LeptoprinSupport.com](http://www.LeptoprinSupport.com).

**WARNING:** This product contains a significantly potent xanthine (i.e., caffeine and caffeine-like stimulants) mixture in excess of 200 mg per regular 2 capsule serving. Therefore, Leptoprin®-SD is not intended for use by pregnant or lactating women. Consult your physician before use for occasional use only. If your health care provider has any questions, ask him or her to call 1-800-898-5153. If you are sensitive to aspirin or to stimulants we suggest you take Leptoprin® SF, the entirely stimulant-free Leptoprin formula.

**Keep out of reach of children.**

For additional information on this or any other A.G. Waterhouse™ product, please call our experienced customer service representatives at 1-800-898-5153.

**WARNINGS:** Before using this product consult your health care provider. Do not take if sensitive to or if allergic to aspirin. Do not use if pregnant (it is especially important not to use aspirin during the last 3 months of pregnancy unless specifically directed to do so by a physician because it may cause problems in the unborn child or complications during delivery), nursing, have asthma, or have stomach problems (such as heartburn, upset stomach or stomach pain) that persist or recur, or if you have ulcers or bleeding problems, unless directed by a physician. If ringing in the ears or temporary loss of hearing occurs, consult a physician before taking again.

**DRUG INTERACTION PRECAUTION:** Do not take this product if you are taking a prescription drug for anticoagulation (thinning of the blood), diabetes, gout or arthritis, or any other prescription drug unless directed by a physician. This product is not intended for pain relief, fever, toothache, or any other analgesic effect.

**Keep out of the reach of children.** Children and teenagers should not use this product, or any other product containing aspirin, for chicken pox or flu symptoms before a physician is consulted about Reye Syndrome, a rare but serious illness reported to be associated with aspirin. In case of overdose, get medical help or contact a Poison Control Center right away.

**Read the label and follow directions.** Discontinue use and call a physician or licensed health-care professional immediately if you experience rapid heartbeat, dizziness, severe headache, shortness of breath, or other similar symptoms.

**ALCOHOL WARNING:** If you consume 3 or more alcoholic drinks every day, ask your physician whether you should take aspirin. Aspirin may cause stomach bleeding.

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
